SUPER SLEUTH —The Case of the Mad Mummy

As BASIL BYRON, famed sleuth, you have been engaged to investigate the recent strange behaviour of Lord Alyn Munroe, well known British Adventurer.

Lord Munroe disappeared from public life 3 years ago after returning from an expedition to Egypt.

At that time he shunned reporters and fled the docks in a private coach taking with him a large collection of crates and sea chests.

As you cross the Moors in your coach, Castle Keep is silhouetted against the night sky ...

A shudder of apprehension runs down your spine

In Adventures, you instruct the computer with two word english commands, consisting of a VERB and a NOUN. Your computer will respond as appropriate.

Your aim is to solve the puzzles and mysteries within this adventure by taking note of all occurrences and using your logic. If there is no response to a word, try another. Discovery of words that apply is left up to your logic.

It will be helpful to take note of any clues and make a map as you explore. Keep pen and paper handy!
